

USB 2.0 Slimline HyperDrive

www.hypertec.co.uk

Product Overview

The new Slimline HyperDrive is a USB flash drive with all the features of the original HyperDrive but in a more compact and lightweight form.

A plug and play device that simply plugs into any USB port – PC, laptop, projector - if it has a USB port the machine will automatically detect the HyperDrive as a removable drive.

Now you can read, write, copy, delete and move data from your hard disk to the HyperDrive or from the HyperDrive to your hard disk.

Features

- ▼ Supplied with extension cable and driver CD
- ▼ Available with customer branding if required, please ask for further information
- ▼ Password protection and encryption functionality
- ▼ LED indicator - shows when the HyperDrive is in use
- ▼ Hot Plug & Play - enables you to install/uninstall the HyperDrive at any time.
- ▼ Cross platform compatibility – move data between different operating systems
- ▼ USB 1.1 compatible (however please note that using a USB 2.0 HyperDrive in a USB 1.1 device will only deliver USB 1.1 performance)
- ▼ Available in storage capacities of 128MB up to 2GB
- ▼ OS support for Windows 98/ME/2000/XP, Linux Kernel 2.4.0 or above
- ▼ No drivers necessary for Windows ME/2000/XP, Linux Kernel 2.4.10 or above and Mac OS
- ▼ 3 year warranty
